SUMMARY

Energetic Full-Stack and React Native developer with hands-on experience delivering contract and in-house applications. Skilled at turning Figma prototypes and product requirements into robust mobile and web experiences. Proven track record in hackathons and contract engagements.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries	React, React Native, Node.js, Express
Databases & APIs	PostgreSQL, RESTful APIs
Tools & Workflows	Git/GitHub, VS Code, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Contract React Native Developer, Dhive – Remote

- Built and maintained mobile components in React Native, integrating with Dhive's blockchain APIs.
- Collaborated with product and design teams to translate Figma mockups into reusable, performant UI modules.
- Implemented state management and form validation using React Hooks and Context API.

Front-End Developer, Vik Human Resources Managers – Remote

- Developed responsive company website with HTML, CSS, and vanilla JavaScript.
- Created dynamic form workflows for applicant and guarantor data collection.
- Ensured accessibility and semantic markup, leading to improved usability.

SELECTED PROJECTS & ACHIEVEMENTS

Dhive

- Forked and extended the Dhive Protocol front end in React Native.
- Built UI components and integrated API calls for real-time blockchain data interactions.

Timetable App for Autistic Children

- Hired by Kidcellence Special Education Consultancy to develop a React Native mobile app.
- Designed and implemented an intuitive schedule interface, with visual cues and reminders tailored for neurodiverse users.
- Integrated offline data storage and push-notification support to ensure reliability in diverse environments.

Simple-Calculator

- Built an interactive calculator app from scratch, handling basic arithmetic operations and edge-case input.

Gen-MOM

- Led a team to victory at the Base Africa Social Hackathon with a React-driven front-end for a mental-health Web3 platform.
- Integrated on-chain data flows to support user authentication and feedback loops.
- Awarded "Best Social Impact Project."

Vik-HR-Managers

- Designed and coded a mock HR management site featuring forms, team bios, and service pages.
- Implemented accessible layouts and semantic markup.

EDUCATION

WAEC Certificate, Beacon Height Schools, Nigeria

CERTIFICATIONS & AWARDS

- Best Social Impact Project, Base Africa Hackathon
- WAEC Senior School Certificate (SSCE)
